Verification Objective

The objective of this verification is to assess compliance to the below reported verification criteria. The verification results are reported in the document entitled "PURO OUTPUT AUDIT REPORT" dated 9.6.2025 relative to Climeworks AG.

Verification Scope

Scope of verification

- Output for the period of 1.3.2025 – 30.4.2025 for CO₂ removal method: Geologically stored Carbon with Direct Air Capture

Verified areas

- Production output of Geologically Stored Carbon for the period of 1.3.2025 – 30.4.2025

Level of Assurance

The verification was conducted by DNV with a reasonable level of assurance. An audit is based on verification of a sample of available information. Consequently, there is an element of uncertainty reflected in the audit findings. An absence of nonconformities does not mean that they do not exist in audited and/or other areas. Prior to awarding or renewing certification this report was also subject to an independent DNV internal review which may have affected the report content and conclusions.
